

A report of abuse is made in Texas every **2 minutes** ¹

73% of sexually abused children won't tell ²

92% of children know their abuser ³

A child has a greater risk of being **sexually abused** than being in a **car accident**

DID YOU KNOW?

Each year, more than 5,000 reports of abuse or neglect are made here in Collin County. For over 27 years, we have provided critical services for children victimized by abuse or neglect in our community, free of charge. We are the only agency in Collin County offering these services and we do so because our community's children deserve the best childhood possible.

HOW WE HELP

Forensic Interviews

Fact-finding interviews conducted by specially trained professionals designed to minimize the number of times a child must tell their story.

Therapy

We provide many types of therapy services to child victims and non-offending family members at no cost as long as help is needed.

Family Advocacy and Support Services

Focusing on the emotional, economic, and resource needs of victims and their families, the Center provides consistent support from the day they come in to the end of the criminal trial. This includes programs like Back to School Fair, Rainbow Room, and Holiday Project.

Community Education

Our goal is to raise awareness throughout the community about the importance of preventing, recognizing, and reporting child abuse.
